

# EUMOL WINTER SCHOOL

## IV EDITION

EUMOL Winter School has always been the right place to meet academics, regulatory experts, and officials from central

banks and International regulatory authorities with a view to investigating prominent issues in the field of the European harmonisation process for payments.

This year, the Winter School focuses on crypto-assets and Central Bank Digital Currencies (CBDCs).

Due to covid-19 emergency measures and distance standards, I am organising the Winter School in a new way. The standard 20 teaching hours have been scheduled on different days and divided between in-person lectures (12 teaching hours) and student group presentations (8 teaching hours) based on the study materials provided by the guest speakers.

### EUMOL Winter School Calendar:

**November, 8 (4.00 – 6.00 p.m. Room 11)**
